

Sometimes you need answers in a matter of minutes, not days.  
With Assist you don't have to decide between quality or speed.

## REASONS TO REACH OUT:

### CALCULATIONS, FILTERING & LOGIC

#### FILTERING

Quick Filters have your head spinning? Dashboard Action filters not working as you thought they would?

Let's dive into narrowing the focus of your dashboard story.

~30-45 min

#### CALCULATIONS

Level of Detail, LOD, what does it mean? How do I create a calculation for this KPI? Why can't I get the right percentage when doing a calculation?

We'll dissect your calculation and teach you what you need to do.

~45-60 min

#### FUNCTIONS

Is there a better function than what I'm currently using? How does this new function apply here?

Broadening your skills through real application to your data.

~30-60 min

### DASHBOARD & DATA DESIGN

#### BEST PRACTICES

Do your dashboards adhere to visualization best practices?

Assist can help ensure clear and consistent communication of your data coupled with visual best practices.

~45-60 min

#### RE-DESIGN

Do your dashboards lack the wow factor? Need some custom iconography?

Let our design experts give you some fresh ideas as to what's possible.

~60 min

#### DATA DESIGN

Having challenges compiling and aggregating your data to power your visualizations?

Receive data design direction with proven methods for aggregation and performance.

~60 min

### ENABLEMENT & STRATEGY

#### TRAINING

Need a refresher on a topic from training or knowledge on a new feature being released?

Webinars, and informal training 1on1 to help you continue expanding your skillsets.

~60 min

#### STRATEGIC PLANNING

Thinking about upgrading, or planning a large deployment to new areas of our organization?

Let us help you think beyond the now. Pulling from our expertise across all industries and magnitudes, we can help guide you smoothly through.

~60 min

#### ALTERYX

Does your workflow need a review? Need a recharge from what you learned in training?

Get assistance from our Alteryx certified professionals to keep your analysis moving in the right direction.

~60 min

### PERFORMANCE

#### DASHBOARDS

Dashboards not performing well?

Let our experts take you through performance checklists and make sure your dashboards are following best practices.

~30-60 min

#### TABLEAU SERVER

Is your server running optimally? Do you need to understand front end setups or permission levels?

Our Server whizzes can help you identify common missteps and take away the doubt in your mind.
