REASONS TO REACH OUT:

CALCULATIONS, FILTERING & LOGIC

- ❑ **FILTERING**
Quick Filters have your head spinning? Dashboard Action filters not working as you thought they would?
Let's dive into narrowing the focus of your dashboard story.
- ❑ **CALCULATIONS**
Level of detail, LOD ... what does it mean? How do I create a calculation for this KPI? Why can't I get the right percentage when doing a calculation?
We'll dissect your calculation and teach you what you need to do.
- ❑ **FUNCTIONS**
Is there a better function than what you're currently using? How does this new function apply here?
We'll broaden your skills through real application to your data.

DASHBOARD & DATA DESIGN

- ❑ **BEST PRACTICES**
Do your dashboards adhere to visualization best practices?
Assist can help ensure clear and consistent communication of your data coupled with visual best practices.
- ❑ **REDESIGN**
Do your dashboards lack the wow factor? Need some custom iconography?
Let our design experts give you some fresh ideas as to what's possible.
- ❑ **DATA DESIGN**
Having challenges compiling and aggregating your data to power your visualizations?
Receive data design direction with proven methods for aggregation and performance.

ENABLEMENT & STRATEGY

- ❑ **WEBINARS**
Need a refresher on a topic from training or knowledge on a new feature being released?
Our team provides monthly webinars to help you continue expanding your skillsets.
- ❑ **STRATEGIC PLANNING**
Thinking about upgrading? Planning a large deployment to new areas of your organization?
Let us help you think beyond the now. Pulling from our expertise across all industries and magnitudes, we can help smoothly guide you through.
- ❑ **DATA PLATFORMS**
Does your analytics workflow need a review? Need a recharge of new info now that you've adopted a few different tools?
Get assistance from our various practices and certified professionals to keep your analysis and systems moving in the right direction.
